SUMMARY

An aspiring web developer with experience in PHP, Laravel, HTML, Tailwind CSS, React, and Git. I enjoy building responsive and user-friendly web applications while continuously improving my technical and problem-solving skills. I am eager to contribute to innovative projects and grow professionally in web development and software engineering.

PROFESIONAL EXPERIENCE

Full-stack Web Developer | Residentia Connect

Apr 2026 - Present (On-call)

Stack: **Laravel + TailwindCSS**

- Designed and implemented CRUD (Create, Read, Update, Delete) functionalities for various system modules.
- Built and maintained responsive user interfaces using Tailwind CSS.
- Developed and integrated forms with backend functionality using Laravel and MySQL.
- Collaborated with the development team to implement new features, fix bugs, and improve system performance.

PROJECTS

Smart Facial Recognition Gate Access System

Oct 2025 - Apr 2026

Thesis Project

Stack: **PHP, Python, OpenCV, ArduinoUNO, HTML, Javascript, Tailwind CSS and MySQL**

- Developed a machine learning-based access control system integrating facial detection technology.
- Implemented automatic gate operation using Arduino Uno upon successful facial recognition.
- Designed an automated attendance and logging system that records user data in real time.
- Utilized Python for facial detection and machine learning functionalities.
- Integrated PHP, HTML, Tailwind CSS, and MySQL for system management and monitoring.
- Improved security and efficiency through automated access management.

Academic Performance Monitoring System

Mar 2025 - Apr 2025

Academic Project

Stack: **HTML, Javascript, TailwindCSS, PHP and MySQL**

- Designed and developed a web-based system for monitoring teachers' and students' academic performance.
- Implemented modules for performance tracking and data management.
- Developed responsive user interfaces using HTML and Tailwind CSS.
- Managed backend functionalities using PHP and MySQL.
- Improved accessibility of academic data for administrators and stakeholders.

E-Commerce Management System Academic Project | 2025

Jan 2025 - Feb 2025

Stack: **HTML, Javascript, TailwindCSS, PHP and MySQL**

- Designed and developed a full-featured e-commerce management system for a sneakers and apparel store.
- Implemented product catalog, category management, search, shopping cart, and secure checkout modules.
- Built an administrative dashboard for managing products, categories, users, and customer orders.
- Developed order history, order tracking, and user profile management features.
- Integrated activity and audit logging to improve security, monitoring, and system accountability.
- Optimized the user interface for a responsive and seamless shopping experience.

SKILLS

Programming

Languages

- PHP
- Python
- JavaScript
- HTML
- CSS

Frameworks & Libraries

- Laravel
- React
- Tailwind CSS
- Bootstrap

Database

- MySQL

Tools & Technologies

- Git & GitHub
- XAMPP

EDUCATION

Bachelor of Science in Information Technology

Visayas State University

Relevant Coursework in Web Development, Networking and Database Management Systems

PORTFOLIO

<https://gerd092002.github.io/MyPortfolio/>

LANGUAGE

- English
- Tagalog

REFERENCE

ARIEL VERZOSA
